

METREX Spring Conference Next Generation Workshop

The workshop is part of the programme of the Spring Conference of Metrex, an established network of over 50 metropolitan regions and areas in Europe. METREX contributes the metropolitan dimension to policies, programmes and projects on a European scale. The network is a partner of European institutions, the research community, governmental organisations and other networks.

The workshop will engage students from Politecnico di Torino and Politecnico di Milano, in a visioning activity focusing on the future of Metropolitan development in Europe and the world, organized through a serious game.

Torino, May the 20th, 2022 | Venue: Castello Del Valentino (Classroom 10V)
